ELSEVIER

Int. J. Production Economics 58 (1999) 335–336

international journal of
production
economics

Contents Volume 58

Vol. 58, No. 1

Manufacturing systems with machine vacations, arbitrary topology and finite buffers
A. Kavusturucu and S.M. Gupta 1
Statistical dependence in risk analysis for project networks using Monte Carlo methods
J.R. van Dorp and M.R. Duffey 17
A fuzzy decision model for color reproduction
C. Temponi, F.D. Fard and H.W. Corley 31
An EOQ lot sizing model with random supplier capacity
M. Hariga and M. Haouari 39
Comparison of several heuristics using an analytic procedure for replenishment with non-linear increasing demand
J. Yang, G.Q. Zhao and G.K. Rand 49
Consolidating distribution centers can reduce lost sales
R. Bordley, M. Beltramo and D. Blumenfeld 57
Networked manufacturing: The impact of information sharing
S. D'Amours, B. Montreuil, P. Lefrançois and F. Soumis 63
An integrated production-distribution model for a multi-national company operating under varying exchange rates
Z.M. Mohamed 81
A lost-sales continuous-review inventory system with emergency ordering
E. Mohebbi and M.J.M. Posner 93
Diary of Events 113

Vol. 58, No. 2

A hierarchical planning system for energy intensive production environments
L. Özdamar and S.I. Birbil 115
An analysis of the inventory behavior in a q-theoretic framework
A. Guariglia 131
The performance of two popular service measures on management effectiveness in inventory control
A.Z. Zeng and J.C. Hayya 147
Cost and performance analysis of a robotic rework cell
N. Geren and A. Redford 159
Lot-bucket MRP
R.J. Casimir 173
An optimal production run length in deteriorating production process
C.H. Kim and Y. Hong 183
A new line remedial policy for the paced lines with stochastic task times
H. Gökçen and Ö.F. Baykoç 191
Determining safety stocks for production planning in uncertain manufacturing
Y.-F. Hung and C.-B. Chang 199
JIT production planning approach with fuzzy due date for OKP manufacturing systems
W. Wang, D. Wang and W.H. Ip 209

0925-5273/99/$ – see front matter © 1999 Elsevier Science B.V. All rights reserved

Erratum
Y. Li, W.H. Ip and D.W. Wang 217
Diary of Events 219

Vol. 58, No. 3

Optimal two-stage lot sizing and inventory batching policies
D.S. Kim 227
Capital budgeting under uncertainty: An extended goal programming approach
T.Ch.U. Kalu 235
A mathematical programming approach to evaluating alternative machine clusters in cellular manufacturing
V.L. Berardi, G. Zhang and O.F. Offodile 253
Explaining beer demand: A residual modeling regression approach using statistical process control
M. Koksalan, N. Erkip and H. Moskowitz 265
Cement transportation planning via fuzzy linear programming
L.-H. Shih 277
Application of discrete event simulation to the activity based costing of manufacturing systems
T.A. Spedding and G.Q. Sun 289
Analysing interaction effects on MRP implementation using ACE
C.-C. Sum, S.-A. Quek and H.-E. Lim 303
A pragmatic view on process capability studies
M. Deleryd 319
Diary of Events 331
